Mr. Andrew C. King
Permitting Coordinator
Genwal Coal Company
P. O. Box 1201
Huntington, Utah 84528

FEB 9 1987

Dear Mr. King:

We have received your proposal to cut one entry to connect 1st West with 2nd West to facilitate an equipment move. We deem this as a minor modification to the existing plan. Approval is hereby given. This mine entry is located underground and will not significantly affect the surface environment as per NEPA. This mine entry must comply with the approved MSHA ventilation plan. Any changes to the ventilation system must be approved by MSHA.

If we can be of assistance or if you have any questions, please contact Stephen Falk of my staff at 637-4534.

Sincerely yours,

/s/ Samuel R. Rowley

Re: Underground Modification

Dear Mr. Falk,

As we discussed the other day regarding access to the second west section please find enclosed 2 copies of the maps showing the location of the proposed access entry between 1st and 2nd west.

We request this additional entry in order to facilitate the moving of the high profile equipment from the 1st west section to the 2nd west section in higher coal. When we are finished with this entry it will be sealed in accordance with the approved ventilation plan.

I have sent maps to the Division of Oil, Gas and Mining for their approval as well. If you should have any further questions or comments please feel free to contact me at 637-7383. Thank you for your time and consideration.

Sincerely yours,

Andrew C. King
